You can use Gmail as an email client for your CERGE-EI mailbox for receiving and sending messages.

To receive cerge-ei traffic use messages forwarding from CERGE-EI to Gmail as Gmail can not connect an external mailbox over IMAP. If you need to send or reply cerge-ei email from Gmail, please read the following guide:

https://support.google.com/mail/answer/22370?hl=en

You'll find there:

1. How to arrange your setting and create new identity related to CERGE-EI mailbox.
2. How to send an email on behalf of your CERGE-EI address.

Use CERGE-EI SMTP server to be able to address all distribution lists including the uppermosts, like All CERGE-EI Affiliate.

SMTP Settings

```
Server Address:  mailgw.cerge-ei.cz
Connection Security: STARTTLS
```

```
Port: 587 (default)
Authentication Method: Normal password (ordinary PC/network password)
```
