

Webmail Filters

Filters are set of rules (conditional actions) for messages processing.

How to apply list of filters

- List of rules is applied to all new messages in order from top to bottom.
- Rule is applied only when condition is matched, than action is done
- If “stop processing other rules” is on, no other rules are applied
- Otherwise next rule is processed and conditionally applied

How to create filter rule

Activity Stream Filters

Activity Stream Settings Rules may be set so when you receive less important messages, they are moved out of your Inbox and into an Activity Stream folder that you can check at your convenience.
