addon: Manually sort folders

Q: *I created a number of mail accounts, but unfortunately the more important ones were created last. I'd like to move that account to the top of the list, but I don't see any way of reordering the account display once the accounts have been created.*

Is there a way to reorder the accounts once they have been created?

A: Install add-on extension **Manually sort folders**

This extension allows you to manually sort (order) your folders in the folder pane of Thunderbird or automatically sort them, but in a better way. This extension also allows you to re-order accounts in the folder pane.

see https://addons.mozilla.org/en-US/thunderbird/addon/manually-sort-folders/?src=ss
