

# WiFi 'residents' - Configuration Hints

## Basic WiFi settings

Network name (SSID)	'residents'
Username	<i><b>your email address</b></i> (use lower-case letters only)
Password	<b>Use the password shown to you during registration</b>
Security type	WPA2-Enterprise / 802.1X
Encryption type	AES

## Other Connection Settings (if needed)

Network authentication method	Protected EAP (PEAP, Microsoft <b>PEAP</b> )
Certificate CA	Do not validate / <b>do not specify server certificate</b> / accept the certificate when asked (self-sign certificate is used)
Authentication Method	<b>EAP-MSCHAPv2</b> (Windows specific: disallow use of Windows logon and password)
802.1X Advanced Settings	Authentication mode = User Authentication (enter and save your credentials)
Domain	<b>wifi.cerge-ei.cz</b>
Certificate Authority (CA)	<b>USERTrust RSA</b> Certification Authority

## Usage notes

- You can use your Wi-Fi access credentials for **all your devices**
- **Never give your credentials** to any other person!
- Each user must use his/her own credentials because of security rules and measures
- Please avoid any illegal network activities and always follow university rules
- If you lose your password you have to reset your account (use button **Reset account...** at the bottom of your registration page)
