## Lifesize - Basics

### Lifesize App

The Lifesize app is how Lifesize users connect to meetings when they can't join a physical meeting room. The app is available for download for PC, Mac, Android and iOS, and there is also a web app to make and receive calls natively in your web browser.

Getting started guide may be read at

<https://www.lifesize.com/en/resources/videos/getting-started-with-lifesize>

### Lifesize Rooms

Lifesize offers virtual "Rooms" to connect to. Each room has unique ID and provides connection of participants separated from other rooms.

A specific room may be accessed via link containing a proper **Room ID** (e.g.:

<https://call.lifesizecloud.com/XXXXXXX> )

Each room has its **Password** so unwanted participants are not allowed
